HEALTHIEST NATION 2030

April 3-9, 2017 • National Public Health Week

Join us in celebration of National Public Health Week 2017 by viewing some of the series of webinars the Institute hosted in partnership with the Oregon Health Authority's [Public Health Division](#):

- [Population Health - What Does it Mean?](#)
- [Tobacco Use: Identification, Intervention and Referral](#)
- [Healthy Weight Management Strategies in Clinical Practice](#)
- [Exploring Comprehensive Diabetes Prevention and Care in Oregon](#)
- [Screening and Treating Chlamydia in Primary Care](#)
- [Improve Colorectal Cancer Screening and Save Lives!](#)

These webinars were part of an ongoing public health and primary care webinar series featuring public health experts who can offer valuable training and resources to primary care providers, and ideas and examples of how the two can work together to improve population health.

About Us

Thank you for subscribing to the Patient-Centered Primary Care Institute newsletter. The Institute accelerates primary care transformation in Oregon by bringing together health care providers, clinic staff, technical experts, patients, quality improvement professionals and others to share valuable knowledge and resources. To learn more about our work, visit pcpci.org.

[Nutrition Interventions for your Primary Care Setting](#)

Learn about blood pressure management using a nutrition care model from a Registered Dietitian Nutritionist working in the health care quality field. This webinar covers how to implement the model, including specific interventions with strong clinical recommendations.

Oregon Health Authority's 2017 Innovation Cafe: Improving Key Health Metrics!

MAY 9, 2017 | SALEM, OR

This is a free discussion-based forum for Oregon health system transformation champions to engage in peer-to-peer learning and networking. CCO, clinic and other innovative health system leaders will present projects and discuss learnings focused on three CCO incentive metrics:

- Increasing effective contraceptive use to reduce unintended pregnancy
- Reducing tobacco prevalence
- Reducing emergency department use with a focus on behavioral health

The Institute is continually gathering valuable resources, tools and information to share with practices in all stages of patient-centered primary care home transformation. Find many other resources searchable by topic area, resource type or PCPCH standard [on our website>>>](#)
