Your Personal Health Record – The Shared Care Plan

Welcome to Your Personal Health Record

What is the Shared Care Plan?

The Shared Care Plan is a free, easy-to-use, Personal Health Record that lets you keep track of vital health information in case of an emergency. You can also share this information with your family, physicians and other people you feel should have access to this information. For more information about the Shared Care Plan, please visit www.SharedCarePlan.org or call (360) 756-6840 or (888) 503-6843.

Electronic Shared Care Plan

If you would like to have an electronic Shared Care Plan housed on a secure Website please go to www.SharedCarePlan.org/signup. There, the information you enter online will be accessible to you and the people you specify from any Web ready computer around the world. The information can also be printed out as needed. There is also a pocket-sized summary that will easily fit in a wallet which is especially useful when traveling.

Critical Information Available in an Emergency

The SCP is a place to record key information that medical personnel need access to in an emergency. If you carry your SCP with you or let your emergency contact know where it is, the information is available to emergency personnel. This means that even if you are unable to communicate, your critical information is still available to health care professionals.

How can I make the most of my Shared Care Plan?

Fill out as much information as you can in your Shared Care Plan. If there are things you don't know, ask for that information from your clinic(s) at your next visit. Bring a copy of your Shared Care Plan with you to all of your health care appointments. Ask your Care Team members (anyone such as doctors, nurses, therapists, pharmacists, care-givers, family or friends who help you in your journey towards better health) to look at your Shared Care Plan for a current picture of your health and to help you keep the information accurate, up-to-date, and complete. You can also work together to define problems, set priorities, establish goals, create treatment plans, and solve problems. Also, keep a copy of your Advance Directives (if you have these) with your Shared Care Plan at all times. This way your wishes will be known and the legal documents immediately available in the case of an emergency.

How can I get another copy of this paper version of the Shared Care Plan?

You can find downloadable versions of the Shared Care Plan online in both Microsoft Word and Adobe PDF formats. There is also an English/Spanish version available. Go to www.SharedCarePlan.org for more information.

How do I put this booklet together?

The paper Shared Care Plan is designed to be printed double-sided and folded like a booklet although you can print it regularly as well. Refer to your printer's documentation for specific instructions. Generally, you select File and then Print. In the print dialog box, choose "odd pages" next to the word "Print:" After the pages have printed, flip them over and print the even pages this time. Fold the printed pages in half to form a booklet. You may have to select "Reverse pages" for one of these steps.

Care Team

Emergency Contacts

Your Emergency Contact is the person you would like called first should you have an emergency. Your Backup Emergency Contact is the person you would like called if your primary Emergency Contact is unavailable.

My Shared Care Plan – Pursuing Perfection Project in Whatcom County

My Shared Care Plan

A Health Management Tool

Additional copies located on
www.patientpowered.org

What is “My Shared Care Plan”?

“My Shared Care Plan” is a self-management tool that can help you keep track of what is going on with your health. Having this information with you when you visit your doctor may help you become more of a partner in your care.

“My Shared Care Plan” has been tested with more than 40 patients across Whatcom County, WA who are living with diabetes and/or heart failure. We would like to hear what you think. Visit www.PatientPowered.org to share your thoughts and to see what others are saying.

How can I make the most of “My Shared Care Plan”?

Fill out all of the information that you know in “My Shared Care Plan”. If there are things you don’t know, ask for that information from your clinic at your next visit. Bring “My Shared Care Plan” with you to all of your health care appointments. Ask your care team members (doctors, nurses, therapists, pharmacists, etc.) to look at “My Shared Care Plan” for a current picture of your health and to help you keep the information accurate, up-to-date, and complete. You can also work together to define problems, set priorities, establish goals, create treatment plans, and solve problems.

What is “Self-Management”?

Self-management means that you play a key role in managing your care. You are part of a team, along with your doctors, nurses, pharmacists and others, working together to manage your health. For more information on self-management, visit www.PatientPowered.org.

What are “Advanced Directives”?

Advanced Directives state your preferences for end of life decisions. These include:

- **Healthcare Advance Directives (Living Will):** This is a legal form that does not require a lawyer. Your Living Will communicates your wishes about artificially prolonging your life if you are unable to make your wishes known.
- **Physician Order for Life Sustaining Treatment (POLST):** This is a bright green form you and your physician must complete and sign together. These Physician’s orders state your preferences for end of life medical care.
- **Durable Power of Attorney for Health Care:** This is a legal form that does not require a lawyer. This form allows you to name a person as your health care agent – someone who can make decisions about your medical care if you are unable to make the decisions for yourself.

For more information on Advanced Directives, talk to your Doctor. You can also obtain forms and information from the Washington State Medical Association 1-800-552-0612.

What are “Next Steps”?

“Next Steps” are small, short-term goals that move you in the direction of a positive lifestyle change. Share your next steps with your care team members so they can support you in reaching your goals.

How can I get another copy of “My Shared Care Plan”?

You can find this file at www.PatientPowered.org.

You can also pick up a copy of “My Shared Care Plan” at

Patient's barriers to care/goals: (psychosocial and other risk factors go here)

Team Goals: (chronic and preventive)

Sample Plan:

Risk Level: High

Last updated by: XXX XXX, RN 1/16/2013

Original Author: XXX XXXX, MD 11/11/2012

Medical Summary: Cindy is a 48 y/o single mother of two children, Johnny 13 and Amelia 9. Cindy has diabetes , high blood pressure, and knee pain. She is 85 lbs over her desired weight . She has a past history of alcohol and methamphetamine use but clean and sober for 13 years. Her diabetes and hypertension are under poor control and it is difficult to persuade her to get needed lab work and show up for office visits.

Care Team:

Personal Support Team: Boyfriend Joe 503-222-2222, Mother Carol 971-333-3333, AA sponsor Kim, 503-111-1111

Patient's Care Goals (chronic and preventive)

1. "I would like to eat better so I can lose some weight"
2. "I need some help in managing all the stress I'm under with money and the kids"

Patient's Self Management Tools:

1. Call TOPS (Take Off Pounds Sensibly) 503-444-4444 for a support group near your home
2. Meet with Diabetes Education for refresher on nutrition and diet 503-214-9999
3. Meet with our clinic behavioral coach, Dr Jones, about your high blood pressure and stress

Patient's barriers to care:

1. Has to take 2 buses to get to clinic for lab and office visits
2. Boyfriend is overweight and resists making changes in family food choices

Team Goals

1. Cindy will come in for office visit and lab work at least twice a year
2. Cindy will sign up for MyChart and use the diabetes self care to keep team posted on her blood sugar and blood pressure.
